

Best Practice and Sustainability

Why should I submit a Best Practice?

There are several reasons for submitting best practices:

You can share success with your peers

This provides an opportunity for you to enhance your program success by sharing challenges and lessons learned with your colleagues.

You can receive recognition

Best Practices will be highlighted on our website and may be featured in the monthly electronic newsletter, "Kentucky Teacher".

Your best practices help to contribute to program replication

KDE will help facilitate school and district technical assistance to support program improvement and replication.

You can get expert feedback

Each submission is reviewed by subject matter experts who offer suggestions to strengthen program and evaluation activities. The feedback a school or school district receives will be a detailed, individualized, written assessment of the strengths and opportunities available in the submitted best practice.
